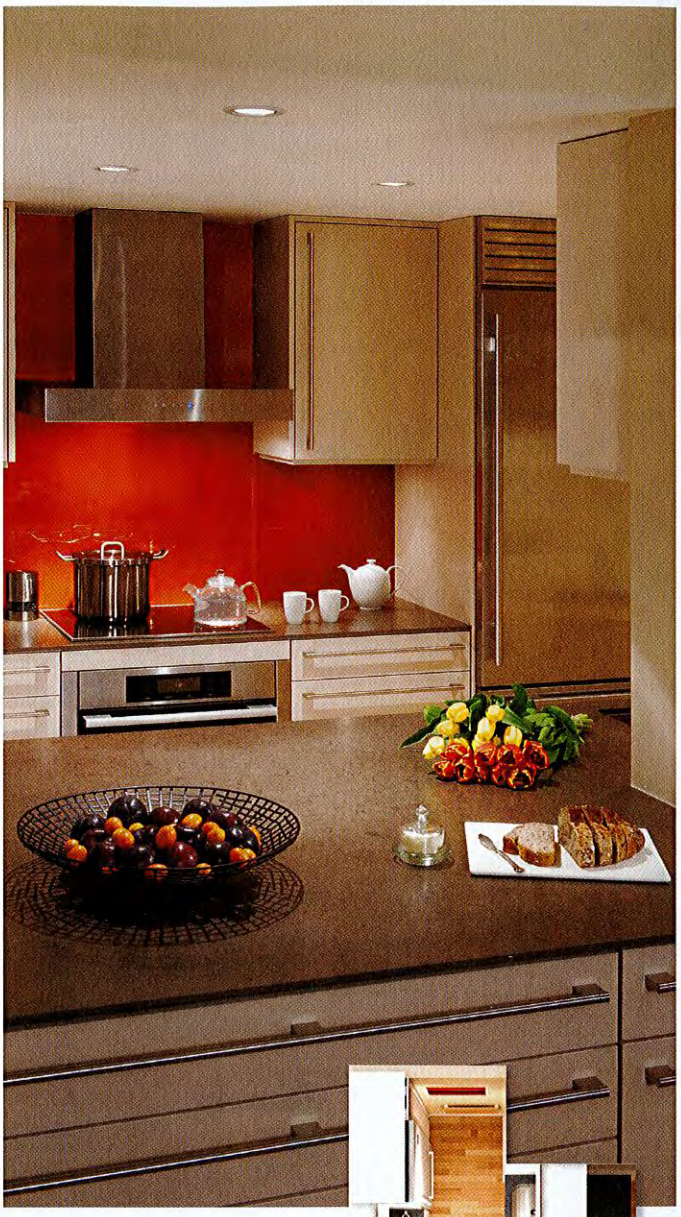
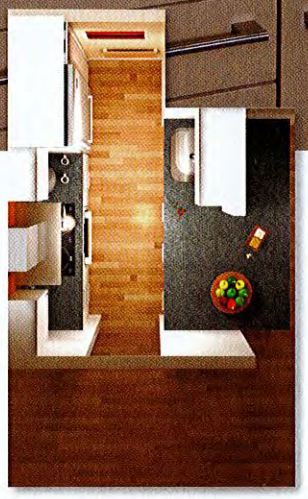
Small Kitchen – 3rd Place





Not at All Retiring

With their move to a retirement community, the clients wanted built-in flair and function for years to come. This kitchen, a medley of modern amenities and tasteful classic design, features stainless appliances, gray flat-panel cabinetry with sleek long handles, thin slate counters and a splash of color in painted-glass backsplash that pops against a neutral palette. An apartment-sized speed oven, reduced-height counter, bottom freezer for long-term accessibility, a tall pullout pantry, wall-mounted fold-down cutting board and a double banquette, among other features, afford all-time ease of storage and accessibility. Roomy, well-lit and purposefully designed to serve within reach.
